

# Are you ready to reach your digital potential?

Finding work can be a stressful task – but you know what you're capable of – you're eager to become a digital champion!

## Free training and support to learn digital skills that will harness your potential.

The D2N2 Digital Skills Academy supports both women and autistic individuals that want to get into work. You could be returning to work after a period of absence, out of work and wanting to find a job, or feel that your current skills are underused in your existing role and want to pursue a career in a digital role. We will help you to gain the skills you need to find a job you'll thrive in.

Boost your prospects with the D2N2 Digital Skills Academy.

Participants can choose from one of five digital training session themes which will help them to become more digitally savvy and boost career prospects. What's more, each training course tutor currently works or owns a digital business, so their knowledge and expertise will be second to none.

The D2N2 Digital Skills Academy is an initiative funded from the Digital Skills Innovation Fund, in partnership with
