

Opening a new business growth window

KEY POINTS

Support Received

- Adviser Support
- Access to finance
- Action planning workshops and webinars

Outcome

- Business growth via project funding
- Upskilling team members

FAKRO GB Ltd offer a complete range of innovative solutions dedicated to bringing light and access to lofts. From natural pine, white acrylic, PU Coated or PVC roof windows in beautiful designs and clever opening methods to windows for flat roofs, lantern roofs and loft ladders - FAKRO delivers the UK's premium collection of products for loft improvements. With a huge range of products, it is no surprise that over the years a number of FAKRO products have been nominated for awards including the Build It Award for Best Roofing or Cladding System. Product 2019 for the preSelect Roof Window and the bronze Architects' Darling Awards 2017 in the category "Best product innovation in the category of building shell" for the DXW Walk-On Window.

FAKRO are continuously aiming to expand and drive the business performance year upon year. The D2N2 Growth Hub has provided support through the provision of a dedicated business adviser who has been able to assist with grant funding for recent growth projects. The adviser has been able to assess a variety of options available to the business, as well as informing them of other upcoming grant funding and schemes. In addition to this, the D2N2 Growth Hub offers a suite of fantastic webinars and courses which has allowed FAKRO to develop staff expertise, enabling them to grow within the company and develop all aspects of their skillsets.

"D2N2 have allowed us to develop our staff's abilities allowing them to expand their knowledge and education within their roles. Richard has been key in this allowing us to understand upcoming events and training which would be suitable to our business"

Noel Shanahan – FAKRO GB Ltd Managing Director
